

Absolutely fast and secure

JetFlash[®] 620

USB Flash Drive

Fast. Thanks to its use of advanced dual-channel technology, the JetFlash 600 offers maximum read speeds of up to 32MB/s, transferring data in the fast lane.

Spacious. The JetFlash 620 offers vast storage capacity up to 32GB, providing more than enough space to store all your personal files and business-related documents.

Absolutely secure. The JetFlash 620 comes bundled with Transcend's exclusive JetFlash SecureDrive software. Once enabled, nobody but you will be able to access files stored within the secure Private Zone—a private, password-protected area created on your JetFlash drive.

JetFlash[®] SECUREDRIVE **ULTRA SPEED**

JetFlash® SECUREDRIVE

JetFlash SecureDrive helps you safeguard data by creating a private, password-protected area on your JetFlash drive. Once enabled, nobody but you will be able to see or access files stored within the Private Zone.

-  **Step 1.** Plug in the JetFlash
-  **Step 2.** Double-click the SecureDrive icon
-  **Step 3.** Create a password
-  **Step 4.** Adjust partition size & click Format
-  **Step 5.** Unplug the JetFlash
-  **Step 6.** SecureDrive setup complete

- ★ The SecureDrive software only works in Windows, and is not Mac or Linux compatible.
- ★ You must have Administrator rights in order to create and/or access the Private Zone.
- ★ Location of SecureDrive application: My Computer > SecureDrive (CD-ROM icon) > "SecureDrive.exe"

JetFlash® elite

 **Take your E-mail with you on the road**
JetFlash elite allows you to store your E-mail for easy access when traveling. Send, receive, and save email safely on your JetFlash using any compatible computer – without leaving any trace of your correspondence for others to find.

 **Browse your favorite websites wherever you go**
The Favorites function saves a copy of all your Internet Explorer Favorites on your JetFlash, allowing you to plug your JetFlash into any compatible computer and browse your websites just like you would at home.

 **Convenient one-click automatic website log in**
Instantly log in to your online website accounts with just a single mouse click. AutoLogin keeps a secure database of all your online usernames and passwords on your JetFlash, so you'll never worry about losing your password again.

 **Powerful security with encrypted file-compression**
Compress your saved files to maximize memory storage space and password-protect your data with powerful 256-bit AES Encryption. With Secret-Zip, you can store files securely while saving space at the same time.

 **Backup, restore and synchronize your mobile data**
Automatically backup, restore, and synchronize your important data. Once a backup is created on your JetFlash, DataBackup allows you to instantly update the backup with any modifications you might make in the future with a single mouse click.

 **Protect your computer with confidence**
Use your JetFlash as a key to lock your desktop or notebook computer and prevent others from accessing your data while you are away. Simply unplug the JetFlash to lock, and plug it back in to unlock.

 **A shortcut to all your mobile data**
Just one easy click opens your JetFlash folder, so you can manage your files quickly and easily.

- ★ JetFlash Elite software only works with Windows® 7 / Vista / XP / 2000 / Me
- ★ To use PC-Lock and AutoLogin you must have Administrator rights.
