-  **Backup**
Important documents, folders, or even entire drives can be safely backed up whenever you want or automatically with advanced multiple task-scheduling functions.
-  **Restore**
Bring your damaged or accidentally deleted files back to life quickly and easily. Intelligent duplicate file name scanning keeps you from inadvertently overwriting newer versions.
-  **Compression**
Conserve precious disk space on your backup drive by using StoreJet™ elite's space-saving compression option.
-  **Security**
The StoreJet™ software offers powerful encryption for backing up sensitive information. Without your password, your backups will be impossible for unauthorized users to restore.
-  **HDD Lock**
Protect your portable drive with a secure password to prevent others from accessing your private data.
-  **Power Manage**
This power-saving feature instructs the StoreJet™ to automatically enter standby mode whenever idle for a specific period of time.
